Richards Bay Port-IDZ Environmental Management Framework

The KZN Department of Agriculture, Environmental Affairs & Rural Development and the City of uMhlatuze have jointly decided to develop an Environmental Management Framework for the Richards Bay Port Expansion Area and the Industrial Development Zone. The project is supported by the National Department of Water and Environmental Affairs and the Danish Government.

The purpose of the EMF is to develop a decision making tool to help guide environmental decisions about future developments in the port and industrial area.

Thorn-Ex and MetroGis JV has been appointed to carry out this task. Should you wish to register as an interested and/or affected party or if you require any information you are encouraged to contact the Public Participation Office at the contact details provided below:

Rod Bulman	Claudia McKenzie

Desired State of the Environment Questionnaire: 18 January 2010

DESIRED STATE OF THE ENVIRONMENT QUESTIONNAIRE

The Environmental Management Framework that is being prepared for the Richards Bay Port Expansion and Industrial Development Zone (EMF) has entered the next stage. The consultants are compiling a "Desired State of the Environment Report". This will be based on the scientific studies already undertaken. However, it is also very important to get an idea of what the residents of Richards Bay desire from the environment. For that reason we are asking for your opinion using the simple questionnaire below.

1. How much do you rely on natural resources for your livelihood? Please give details.
2. Which natural resources are important to you and what would you like to see preserved/ maintained (eg: open spaces, air quality, areas around the Port and IDZ, flora and fauna areas/ breeding grounds etc). Please give details.
3. How important is the development in Richards Bay Port and the IDZ to you? Please give details.
4. The aspects listed below are considered important and may have to be "traded off" against each other. Please rate each of these aspects in order of importance for you. Place a tick in the box that shows the rating you give to that aspect.

Aspect	Very Important	Important	Not Important
Low rate increases	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
More industry	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
More open space	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
More jobs	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Access to water bodies	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Reduced of pollution	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

5. Any other comments/concerns?

Please email/fax or post your answers to the above questions to:
Phelamanga Projects
 claudia@phelamanga.co.za
 Fax: 086 504 2212
 Post: Suite 175, Postnet X6, Cascades 3202

The questionnaire is available on the Phelamanga website: www.phelamanga.co.za (under projects/Richards Bay EMF). Copies are also available at the uMhlathuze Municipality reception desk, 5 Mark Strasse, Richards Bay.
